

DCE - Duct Cleaning Equipment

Duct Cleaning Equipment

IN100000

Inspector

4-wheel drive, colour front camera, 15 meter cable. Built-in joystick, control box and transport box

IN101000

B/w back up camera

IN101001

*Remote joy-stick

IN101003

*LCD screen

IN101004

extra green cable (per meter)

MI300000

Minicam with colour camera (8 meter)

MI300015

Minicam with colour camera (15 meter)

MI301000

5 meter Power supply (green cable)

MI301010

Watertight version

MI303000

*LCD for Minicam

RO500000

TDB robot with:

4-wheel drive, Colour front camera, 30 meter cable, Joystick, Control box ,

2 set of brushes square 220,420 mm

2 brush heads for round brushes

RO501000

B/w back up camera

RO503000

*LCD screen

RO560000

TDB coating equipment including magnetic valve

RO560001

TDB 30 meter hose for coating

DC200000

Ductcleaner with:

Engine 0,5 HP. Frequency converter, timers and controls,

Easy connection for shaft, transport box

DC201010

10 meter shaft with easy connection

DC201015

15 meter shaft with easy connection

DC201020

20 meter shaft with easy connection

DC201025

25 meter shaft with easy connection

DC201030

30 meter shaft with easy connection

DC202000

Aluminium brush head - 2 centre holes + 2 off centre holes

DC202020

Brush hair Polypropylene 1 mm (1200 mm long) 1 roll of 2 kg

DC202021

Brush hair Polypropylene 0,6 mm (1200 mm long) 1 roll of 2 kg

DC202022

Brush hair tynex 1 roll / 1,6 kg

DC252001

Repair kit incl. brass cover, brush end, coupling & hexagon nut

DC251002

Steel core Ø4 mm per meter (max. L: 30 m)

DC251030

Transportring Ø780 mm (max. 3x30 meter steel core/ ring)

Brushes for normal pollution in circular ducts

 ACC710800 800 mm Inflatable balloon.
 ACC711050 1050 mm Inflatable balloon.

ST80101012 **Tornado Nozzle cleaning kit:**
*12 mm with a 25 meter hose on a reel, shut-off valve and quick coupling. 2 hard plastic jet nozzles with variable spreading angles for different duct sizes. 1 aluminium jet nozzle for ducts made of concrete
 Recommend for ductwork 80 – 500 mm*

ST80100012 **Rotating Brush Nozzle cleaning kit:**
*12 mm with a 25-meter hose on a reel, shut-off valve and claw coupling.
 2 pcs. Ø50 mm brushes made of nylon and 2 pcs. Ø60 mm brushes made of steel.
 For cleaning of round ductwork from 100 – 600 mm with heavy contamination.*

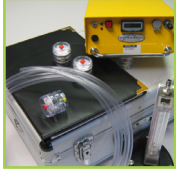

ST80100025 **Rotating Whipstream Nozzle cleaning kit:**
*25 mm with 25 meter hose, shut-off valve and claw coupling.
 For cleaning of vertical ductwork & attachment to TDB Robot*

ST80140805 **Air gun**
with hose 8 mm / 5 meters with 2 nozzles forward and reverse. Can also be used for duct sealing

ST80140810 **Air gun**
with hose 8 mm / 10 meters with 2 nozzles forward and reverse. Can also be used for duct sealing

Duct Cleaning Equipment

ACC201000

Vacuum test kit:

including 15 litres/minute sampling pump, long-life battery, 220v mains unit, calibration flow tube and stand, 4m hose, sampling template and handy folder

ACC100020

Access port 80mm

price each

All electrical equipment can be supplied in:
220V – 50/60 Hz / 110V – 50/60 Hz
Please specify when ordering.
